

## What's New in Process360 Version 10.0

<b>Suitable for:</b>	All participants, managers and builders
<b>Product:</b>	Process360
<b>Course length:</b>	Half-day computer-based training

# What's New in Process360 Version 10.0

## Course Description

The goal of the **What's New in Version 10** course is to help students learn the differences between Process360 version 9.x and the major release, version 10, and is intended for all participants, managers and builders of Process360. This course covers the viewPoint™ approach, the first persona-based BPM workflow solution, and overviews enhancements in all areas, including application architecture, system, data model, and integration features.

## Learning Objectives

- » Describe the business benefits driven by Process360 version 10
- » Describe new persona-led features in Process360 version 10
- » List specific system, data model, and integration enhancements in Process360

## Prerequisites

None.

## I. What's New in Process360 Version 10.0 Agenda
